## Nuclear Latency (NL) Dataset Country Coding Sheets

## MALAYSIA COW COUNTRY CODE: 820

No evidence was found that identifies Malaysia as pursing ENR technology. The contribution of Malaysian manufacturing to the AQ Khan network does not qualify Malaysia as pursuing ENR as it was restricted to component manufacturing with limited, if any, knowledge of the government. An electronic search of *Nuclear Fuel Search*, *Nuclear News*, and *The Bulletin of Atomic Scientists* revealed no indication that the country pursued ENR technology.
